PROGRAM DETAILS

FILM

Join us for a viewing of capstone films by NYUAD's Class of 2021 Film graduates. 8 student-made short films feature the daily life, struggles, and joys of emigrants. What does the Emirates life feel like for people away from home?

MUSIC

In the past months, we have been accumulating all that has been derived to create the sound of The Bridge and how it will manifest the experience of being part of our community. Our three tempo playlists & Community Hour bring to you the beats that will guide you to emote, reflect, and enter an arena of newer possibilities. We welcome you to enjoy your after-work evenings with the ambience of our live DJ and refreshing drinks. Whether it be taking your daily jog on our running track, or recuperating with a relaxing massage, our curated playlists will complement all occasions.

ART

The Bridge is grounded on its core philosophy of holistic transformation that we aim to express through art. Art is not only meant to beautify the space but to share the narratives of emerging artists harmonized with The Bridge's key concepts. Built on passion and creative freedom, the Art Space is where stories unravel and where conversations begin. Watch for more artworks to be showcased from different artists!

ARTISTS' DETAILS

DR. IMAN IBRAHIM

Dr. Iman Ibrahim from University of Sharjah explores pressing issues of excessive consumption and environmental pollution in Her pieces called "Second Life." She adds another dimension to the circular flow of life and death by giving dead trees second lives through upcycling.

FAISSAL EL MALAK

Faissal El Malak expresses the constant conversation between body and nature as well as the physical and ethereal. In this connection with the earth and the divine, what do our internal and external selves reveal?

**LINA KHALED X
UNTITLED CHAPTERS**

Untitled Chapters, a group of Female Emirati writers collaborates with Egyptian artist Lina Khaled to plant seeds of encouragement seen through phrases dispersed around The Bridge and to give life to words through art.

**MOHAMMED
EL KATTAN**

Mohammed El Kattan explores humans and the community. Humans in their complex entirety goes through changes internally and externally as one they go through motions of time, relationships, environment, and emotions.
