

MOVE, PAUSE & SEEK | CLASSES

JUN.22

DATES FOR YOUR DIARY

01-30.JUN

COMPLIMENTARY BIOCIRCUIT

All members are welcome to experience our fully automated 30 minute circuit training format in our Biocircuit Studio. All you need to do is book in for your set up with a coach and then you are good to go. Please contact a coach and they will assist with booking your set up session.

07.JUN

THE BRIDGE GUIDE

THE BRIDGE Guide is a 60 minutes session where we go deeper into how to optimize your experience at THE BRIDGE. It is an essential hour to give you the best possible start to your journey at The Bridge. Meet in the Cinema room at 07:00PM.

01-30.JUN

WEEKEND PAUSE CLASSES

SATURDAY 4th JUNE
SATURDAY 11th JUNE
FRIDAY 17th JUNE
SATURDAY 18th JUNE
SATURDAY 25th JUNE

NO CLASSES ON SUNDAYS

TUESDAYS 05:00PM

07&21 MIXED

28 LADIES ONLY

SATURDAYS 12:00PM

04&18 LADIES ONLY

11&25 MIXED

GROUP CYCLE FTP TESTING

FTP represents your ability to sustain the highest possible power output in a given time and regular assessments of FTP will give an indication of improvements in your performance. The assessment duration is 20 minutes and we encourage you to test once per month.

Your result will be used to set your FTP in each of your classes, leading to a more effective training session.

OPEN TO THE
COMMUNITY

TRACK & LAPS MONDAYS

Whether it's your recovery or active day, get your steps in on our indoor track with the view of Al Qana waterfront. Followed by a guided meditation to allow your body to get into parasympathetic mode for recovery & replenish with an organic cleansing juice of your choice from our ANTI-BAR PAID.

ACTIVE SATURDAYS

90 minute session to start your weekend.

09:15AM MOVE CLASS 40MINS STUDIO 1C

10:00AM PAUSE CLASS 40MINS STUDIO 0A

Post-workout TASTE organic smoothie PAID

BRING ALONG YOUR FRIENDS TO TRANSCEND YOUR EXPERIENCE TO A NEW LEVEL.

GROUP CLASS BRIDGING

Below is a guide on how to combine/bridge your group classes to optimize performance and allow you to train back to back classes in an effective and safe way. There are many more combinations to explore so please reach out to our coaches and they will help you optimize your training.

MON

06:00PM	BIO-FUNCTION	CHARBEL	MOVE	1C	45 MIN
07:00PM	YOGA FLOW	MISSY	MOVE	0A	45 MIN

CLASS DETAILS

FUNCTION

A full body circuit class focused on functional resistance training, aimed at improving your muscular endurance. This session is designed to increase calorie expenditure resulting in body composition adaptations.

FUNCTION EXL

A high intensity circuit combining resistance exercises & bodyweight interval training, focused on increasing your cardiovascular and muscular endurance that will lead to optimal changes in your body composition.

BIO-FUNCTION

A circuit session focused on high repetitions of bodyweight resistance exercises. The main benefits include improved cardiovascular and muscular endurance, increasing calorie expenditure for optimal body composition.

META-FUNCTION

A high intensity circuit session combining resistance exercises & high intensity interval training on cardio machines. It is focused on increasing your cardiovascular and muscular endurance that will lead to optimal changes in your body composition.

ENDURE FUNCTION

An endurance designed session, combining cardiovascular conditioning with functional circuit training. This workout focuses on improving your heart health, muscle endurance and body composition.

KB FUNCTION

This kettlebell-focused class is a full body workout aimed at learning the basics of using kettlebells, whilst still training at a high intensity. Along with cardiovascular and muscular endurance, the class also focuses on utilizing and increasing your power.

ENDURE SWIFT

A quick high intensity endurance based designed session, combining cardiovascular conditioning with functional circuit training. This workout focuses on improving calorie expenditure, muscle endurance, leading to optimal changes in your body composition

META-STRIKE

The class is the specific combination of boxing and metabolic exercises which duplicates the real competition environment. As a benefit you will improve your boxing strike techniques in addition to increased aerobic and anaerobic capacities.

FUNCTION RUN

This running-based circuit class targets your cardiovascular conditioning using a combination of running and specific functional exercises. Combining these will enhance the efficiency of your running technique.

DEFINE DUATHLON

A full body circuit class inspired by the duathlon. Increased strength, power and anaerobic capacity, from using a combination of resisted sprints & strength training, will help you improve your athletic performance and get stronger.

META-STEP

A high-intensity cardio workout with classic 32-count step choreography that boosts your cardiovascular health combined with resistance training routines. Created to expand calories expenditure whilst improving muscular definition.

BIO-ENDURE

Bio-Endure is a bodyweight aerobic class. This class will improve cardiovascular and muscular endurance, all whilst expending a higher level of calories.

SPIN STR

This cardio cycle group class is developed to target cardiovascular conditioning to develop your cycling endurance indoors and outdoors. Focusing on cadence, terrains and intensity control, improving performance, stamina and your experience on the bike.

ENDURE SPIN

This cardio cycle group class is developed to target cardiovascular conditioning, and to develop your cycling endurance both indoors and outdoors. The class improves your strength and stamina on the bike through a mixed class format.

META-SPIN

This cardio cycle group class is developed to target cardiovascular conditioning to develop your cycling endurance indoors and outdoors. Focusing on interval training, hills and flat sections to improve your strength, stamina and your experience on the bike.

PERFORM STR	Learn the fundamentals of resistance training by working on major movement patterns such as squatting, hinging, pushing and pulling. This will improve your neuromuscular control, exercise technique, and help to build confidence when training with or without resistance.
PERFORM	Sport-specific circuit training combining resistance exercises and dynamic movements with active recovery. This training method leads to an increase in physical attributes such as explosive strength, sprinting, and jumping—which when trained consistently, will improve your athletic performance.
PERFORM RUN	A high intensity training class based on running, combined with a training of resistance exercises. As a result, participants will improve stamina, cardiovascular endurance, and muscle strength.
PERFORM ROW	A high intensity training class based on rowing, combined with a training of resistance exercises. As a result, participants will improve stamina, cardiovascular endurance, and muscle strength.
PERFROM RELAY	A team circuit session combining cardio and resistance exercises. Challenge yourself as part of a team and work together to surpass your limits. Improve your muscular endurance and cardiovascular strength in a fun, competitive environment.
DEFINE UPPER	An upper body circuit that uses resistance exercises. Increased muscle gain will accelerate metabolism, leading to a better physique. Combine all DEFINE classes to experience a structured full body training program in a group setting.
DEFINE FULLBODY	A full body circuit that uses resistance exercises. Increased muscle gain will accelerate metabolism, leading to a better physique. Combine all DEFINE classes to experience a structured full body training program in a group setting.
DEFINE BASE	A legs, glutes & core circuit that uses resistance exercises. Increased muscle gain will accelerate metabolism, leading to a better physique. Combine all DEFINE classes to experience a structured full body training program in a group setting.
DEFINE LOWER	A lower body circuit that uses resistance exercises. Increased muscle gain will accelerate metabolism, leading to a better physique. Combine all DEFINE classes to experience a structured full body training program in a group setting.
DEFINE STEM	A core circuit that uses resistance integrated core exercises. Increased core strength will develop stability, leading to better performance. Combine all DEFINE classes to experience a structured full body training program in a group setting.

STEM EXL

An intense core circuit using resistance and bodyweight exercises to prepare and strengthen the muscles, protecting the spine. This session improves core strength, muscle endurance, and power, resulting in better core stability and posture.

TENSION

Tension is a suspension class aimed to maximise workload in 3 main muscle groups (Lower body, Upper body, Core). This session will lead to increased hormonal response, strength, endurance, and improved body composition.

FORM

A mobility circuit aimed at addressing movement limitations surrounding the main joints of the body. Through mobility enhancing techniques this session will improve your range of motion, leading to a reduction in pain and stiffness.

PILATES STEM

Prepare to sweat and burn in this dynamic, intense, Pilates-inspired core class, designed to activate and strengthen all of your deep stabilizing muscles--also known as your core.Expect to see additions such as arm balances and basic inversions that will keep you immersed and challenged. The class targets the whole core area for a healthy posture and stronger midsection, and is a perfect add-on after a workout or another class. Adaptable for all levels, beginners are welcome.

PILATES STR

Our Foundations Class provides an opportunity to learn the principles of Joseph Pilates' work, designed to deliver profound results. Pilates works through progressive levels, where you will discover a newfound feeling of control and efficiency of your body and mind. This foundational class is offered in a small-group environment, taking you through the basics and essentials. Your instructor will closely monitor your progress and provide the adequate verbal and tactile cues and corrections. Adaptable for beginners.

PILATES GLIDE

This is our Signature Pilates class, which is a unique mindful movement experience based off of the principles of Joseph Pilates' work, fused with a modern essence.Designed to deliver profound results, we take you through a bespoke series of mat & reformer exercises, where you will discover a newfound feeling of control and efficiency of your body and mind. Not advised for complete beginners. Our Foundations Class is recommended to ensure the safety of all members.

PILATES GLIDE EXL

Our Athletic Reformer class is a challenging movement experience based off of the principles of Joseph Pilates' work, with a quick-paced flare.Rediscover a feeling of strength and control as we take you through a series of reformer exercises to challenge your athletic abilities. This class will move quickly through technical exercises. Not advised for complete beginners as the member needs to have some experience with Pilates practices. Our Foundations Class is recommended to ensure the safety of all members.

YOGA FLOW

A vinyasa-inspired class characterized by flowing poses, linked to breath and designed to create heat. This fast paced class will challenge your strength, coordination, balance, and flexibility. The creative play between sequences will leave you with greater body awareness.Interesting variations are introduced during the class to allow for adaptability to different ability levels, beginners are welcome.

YOGA STILL

A slow rhythmic Hatha yoga flow, aimed at centering and grounding. The parasympathetic/resting nervous system is activated, and can then be used as a recovery method. Emphasis is placed on mindfully moving through asanas, and utilizing breath for the duration of the class. Adaptable for all levels, beginners are welcome.

YOGA ASHTANGA LED

An athletic approach to yoga using flowing poses and sequences, linked to a strong breath pattern. Ashtanga Vinyasa Yoga is often promoted as a modern-day form of classical yoga.

The Primary series - Yoga Chikitsa in Sanskrit - translates to Yoga Therapy and follows a series of set postures.

The class will challenge you physically and will end with a feeling of deep relaxation.

Traditionally, in the Ashtanga lineage, props and music would not be used.

Adaptable for all levels, beginners are welcome.

YOGA SYNC

Singing bowls will be used in this class to facilitate elements of meditation and relaxation. Recovery yoga—including types such as Restorative and Yin—will be blended into this healing practice to achieve optimal results. This class may use the support of props such as bolsters, blocks, or blankets to allow for further relaxation. Adaptable for all levels, beginners are welcome.

PRANA BREATHE

Breath work, or pranayama in Sanskrit, is the yogic practice of focusing on breath. Prana means "vital life force"; yama means to gain control. In yoga, we practice breath to evaluate life energies, and to improve mental, physical, and spiritual well-being. There are many forms of breath work therapy that involve breathing in a conscious and systematic way, which can promote deep relaxation and help in feeling reenergized. Adaptable for all levels, beginners are welcome.

IONS	Re-connect with the Earth and open up to the healing properties of grounding while having fun with mindful games/activities.
ACTIVATE	Activate the muscles pre work out through dynamic stretching and drills that will enhance your over all performance.
RESTORE	Active recovery through a static stretching session aiming to help your muscles recover post the intense workout.
WALK & FLOW	A communal walk to revitalize and recover as we explore different locations through movement.
PACE JOG	A gently paced communal jog exploring different locations through movement. Activating your cardiovascular system leading to enhanced lung function.
TRAIN TO RUN	An outdoors runners training build up designed to enhance your speed, pace, and endurance through drills, sprints, and agility work. We recommend you attend regularly and consistently to maximize its effects and achieve results.
INHALE	Practicing pranayama, the yogic practice of focusing on breath.
THE BRIDGE GUIDE	Session designed for members to introduce them to a transformational, holistic lifestyle grounded on science, and take them more deeper of what THE BRIDGE is all about and has to offer.
